GoFundMe Pro Campaign Mapping

How does my GoFundMe Pro data sync to Virtuous?

This diagram offers a visual overview of the recommended mapping for GoFundMe to Virtuous Campaigns. When configuring your mapping, we recommend creating all Campaign data in Virtuous first.

KEY

Campaign information below is represented with color-coded boxes indicating:

GoFundMe Pro Data

SYNC SETTINGS: YOUR DEFAULT CAMPAIGN

Gifts synced without Custom Campaign Mapping will be created under this Default Campaign. Virtuous will generate Segments with the corresponding GoFundMe Campaign ID.

Recommended Configuration:

EX: {ANNUAL 2025 CAMPAIGN}

VIRTUOUS COMMUNICATION

EX: {DEFAULT COMMUNICATION}

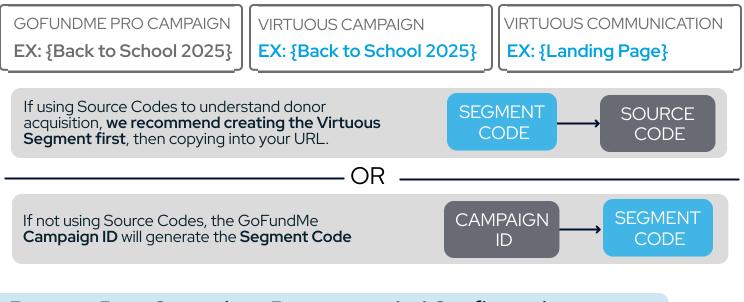

We recommend mapping a general or annual Campaign in the SYNC SETTINGS.

Note: The Virtuous Campaign and Communication mapped under SYNC SETTINGS cannot utilize peer-to-peer functionality.

MAPPING: CAMPAIGN MAPPING

Gifts tied to specific fundraising pushes, whether using P2P fundraising or not, should be configured under Campaign Mapping.

General Fundraising Campaigns Recommended Configuration:

Peer-to-Peer Campaigns Recommended Configuration:

GOFUNDME PRO CAMPAIGN VIRTUOUS CAMPAIGN VIRTUOUS COMMUNICATION

EX: {5K Walk 2025}

EX: {5K Walk 2025}

EX: {Team Stride for Hope}

To configure P2P mapping, Virtuous requires a default, or placeholder, communication in the mapping field. Once gifts sync, GoFundMe will create the corresponding Fundraising Team and Fundraisers.
