# Projects in Virtuous

What are **Projects?**

In Virtuous, Projects are **how funds are used**. They are the programming your organization does.

In many respects, Parent Projects and Subprojects are like two **separate projects** in Virtuous.

However: Giving data can be rolled up (or **summarized**) at the Parent Project level.

The **Structure**:

Projects can also be broken down into Subprojects under a Parent Projects:

PARENT PROJECTS
- Subproject
- Subproject
- Subproject

## How do you set up **Parent Projects & Subprojects**?

The way Parent Projects and Subprojects are set up will **depend on your organization's** size, sector, and structure (ex. a deputized fundraising model.)

Here are some **common examples** of how projects may be designed depending on the organization:

Enterprise/Large Sized Organization:
(ex. a Higher Ed institution)

Scholarship Program
- Fine Arts Scholarship
- Veteran Scholarship
- Memorial Scholarship

Small-Medium Sized Organization:
(ex. a local Humane Society)

Restricted Funds
- Spay & Neuter Program
- Adoption Services
- Veterinary Care

MIssionary Sending Organization:

Long-Term Missionary Trips
- Frank & Estelle Costanza
- Lily & James Potter
- Dre & Rainbow Johnson

Child Sponsorship Organization:

"Better Tomorrow" School
- Xaria (child)
- Rowan (child)
- Justin (child)

PRO TIP: Parent Projects and Subprojects **do not** need to have the same types or locations.

How can I **track project funding?**

The **Project Code** is attached to each gift in order to track where/how the money is going to be allocated (the project it will be used for.)

In Virtuous, you can **organize or group project data** by:

Project **Location**

Parent Project 1	Parent Project 2	Parent Project 3
Subproject 1A	Subproject 2A	Subproject 3A
Subproject 1B	Subproject 2B	Subproject 3B
Subproject 1C	Subproject 2C	Subproject 3C
Subproject 1D	Subproject 2D	Subproject 3D

Parent Project

Parent Project 1	Parent Project 2	Parent Project 3
Subproject 1A	Subproject 2A	Subproject 3A
Subproject 1B	Subproject 2B	Subproject 3B
Subproject 1C	Subproject 2C	Subproject 3C
Subproject 1D	Subproject 2D	Subproject 3D

Project **Type**

Parent Project 1	Parent Project 2	Parent Project 3
Subproject 1A	Subproject 2A	Subproject 3A
Subproject 1B	Subproject 2B	Subproject 3B
Subproject 1C	Subproject 2C	Subproject 3C
Subproject 1D	Subproject 2D	Subproject 3D
